

The Best of Every Season

Double Red And White Columbine*

Aquilegia vulgaris 'Double Red And White'

Plant Height: 18 inches

Flower Height: 24 inches

Spread: 18 inches

Sunlight: ☉ ●

Hardiness Zone: 2

Other Names: Granny's Bonnet, Crowfoot

Description:

A unique variation of Columbine, featuring fluffy double flowers with white petals and red centers on stems, well above the lacy green foliage mound; wonderful for containers or border edging

Ornamental Features

Double Red And White Columbine features showy nodding crimson bell-shaped flowers with red eyes at the ends of the stems from late spring to early summer. The flowers are excellent for cutting. Its lobed compound leaves remain green in color throughout the season. The fruit is not ornamentally significant.

Landscape Attributes

Double Red And White Columbine is an herbaceous perennial with an upright spreading habit of growth. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This is a relatively low maintenance plant, and should be cut back in late fall in preparation for winter. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects

Double Red And White Columbine is recommended for the following landscape applications;

Planting & Growing

Double Red And White Columbine will grow to be about 18 inches tall at maturity extending to 24 inches tall with the flowers, with a spread of 18 inches. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 5 years.

This plant does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This is a selected variety of a species not originally from North America.

Double Red And White Columbine is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
